On Wednesday, January 8, 2025, the State Water Resources Control Board, Los Angeles County Health Department, and the Kinneloa Irrigation District issued a Do Not Drink Advisory to all residents due to water quality concerns arising from the Eaton Fire. We are pleased to inform you that this issue has been fully resolved for all areas of the District **except the Dove Creek Townhome Complex**. Comprehensive water quality testing has been completed, and results confirm that the water meets all state and federal safety standards for potability. The State Water Resources Control Board Division of Drinking Water (SWRCB DDW) has authorized the removal of the Do Not Drink Advisory, effective Tuesday, January 21, 2025, for all customers **excluding the Dove Creek Townhome Complex**. A revised Do Not Drink notice specific to the residents of Dove Creek Townhome Complex is being issued concurrently with this notice.

Recommended Actions:

- **Flush Your Water Lines:** Run cold water through all taps for at least 5 minutes to remove any stagnant water.
- **Sanitize:** Sanitize water-using appliances or fixtures, like faucets, filters, and refrigerators, as a precautionary measure
- **Monitor for Water Quality:** Monitor water quality for any unusual changes, such as odor, color, or taste, and report any concerns immediately.

Thank you for your patience and cooperation as we worked to resolve the issue. Your safety remains our highest priority.

If you have any questions or require further assistance, please contact Tom Majich at 626-797-6295, mailing address 1999 Kinclair Dr, Pasadena CA 91107-1017.

Please share this information with others who may use this water, including residents in apartments, nursing homes, schools, and businesses, especially if they may not have received this notice directly. You may do so by posting this public notice in a visible location or distributing copies by hand or mail.

This notice is issued by the Kinneloa Irrigation District.
